

# All About Inventions

I can recognise that inventions and discoveries come from all over the world.  
I can give an example of how some things are invented to make people's lives easier.

Choose three of the inventions we have looked at to research. Fill in a box for each one.

**Invention:**

Inventor (if you know):

Where it was invented:

What job did it do?

Why did people need it?

How do we use it now?

**Invention:**

Inventor (if you know):

Where it was invented:

What job did it do?

Why did people need it?

How do we use it now?

**Invention:**

Inventor (if you know):

Where it was invented:

What job did it do?

Why did people need it?

How do we use it now?

Listen to what the other people in your group have found out. Write your favourite fact that someone else found out:
